ISIN: LU3169061929

Website: www.eurosgri.it

Consob is responsible for supervising Euromobiliare Asset Management SGR SpA in relation to this Key Information Document. This PRIIP is authorised in Luxembourg. Euromobiliare Asset Management SGR SpA is authorised in Italy and regulated by the Bank of Italy and Consob.

Date of production of this key information document: 05/11/2025

What is this product?

Type: The shares are a class of shares (the “Shares”) in Core+ BlackRock Euro Government Bond (the “Sub-Fund”), a sub-fund of Euromobiliare International Fund (the “SICAV”), a *société anonyme* set up as an Undertaking for Collective Investments in Transferable Securities (UCITS) under Luxembourg law. Euromobiliare Asset Management SGR SpA (the “Management Company”) has been appointed as the management company of the Fund. The Sub-Fund is a compartment of an investment fund, whose performance will depend on the performance of its portfolio.

Term: The term of the Sub-Fund is unlimited. The board of directors of the SICAV (the “Board”) may decide to terminate the Sub-Fund by liquidation or merger under certain circumstances. The Board also has the power to compulsorily redeem your Shares in certain circumstances. The Management Company as PRIIP Manufacturer cannot terminate the Shares, Sub-Fund or SICAV unilaterally.

Objectives: The Sub-Fund aims to grow capital over time and achieve a total return in line with ICE BofA Euro Government Index (the “Benchmark”) tracking the Eurozone government bond markets performance. The Benchmark is designed to measure the performance of euro-denominated sovereign debt publicly issued by Eurozone governments in the euro domestic or Eurobond markets. The Benchmark of the Sub-Fund is valued in Euro. The Sub-Fund is actively managed. The Investment Manager invests similarly to the Benchmark, while seeking to increase returns through a combination of quantitative and discretionary approaches. Using the analysis of market valuations and sector trends, as well as statistical models of macroeconomic and microeconomic variables, the Investment Manager over or underweights certain bonds, aiming to maintain performance within a defined range compared to the index (limited tracking error approach) and risk exposure within predefined limits. Although the Sub-Fund is managed in reference to the Benchmark and investments may be selected based on the Benchmark, the Investment Manager has full discretion and freedom to deviate from the Benchmark in accordance with the prospectus of the SICAV (the “Prospectus”). The Sub-Fund invests mainly in euro-denominated bonds and/or money market financial instruments issued by sovereign issues or guaranteed by sovereign states or supranational bodies, located in European Union countries. The Sub-Fund normally invests at least 90% of its total net assets in debt securities and debt related instruments including money market instruments from issuers included in the Benchmark. The credit rating and duration of the securities are usually consistent with those of the Benchmark. Up to 20% of the net asset of the Sub-Fund may be invested in bond-type securities with a rating below BBB- (‘non-investment grade’). The Sub-Fund does not invest in unrated bond, distressed or defaulted securities and does not use securities lending transactions. The Sub-Fund does not invest directly in asset-backed securities (ABS) and contingent convertible bonds (CoCos) but may be indirectly exposed to them up to 10% of its net asset value in aggregate via derivatives. The Sub-Fund generally favours direct investments but may also invest through derivatives up to 10% of its net asset value in aggregate. The Sub-Fund has the option of using derivatives for hedging market risks, portfolio management and investment purposes in accordance with the Prospectus. The Sub-Fund may also invest up to 10% of its net assets in units of UCITS and/or other undertakings for collective investment. The Sub-Fund may, additionally, hold ancillary liquid assets (i.e. bank deposits at sight) up to 20% of its net assets. This limit may be exceeded temporarily when, due to exceptionally unfavourable market conditions, circumstances require it with regard to the interests of investors. The Sub-Fund does not have a sustainable investment as its objective nor intends to promote specific environmental or social characteristics as defined by EU Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR) and therefore qualifies as an article 6 product within the meaning of SFDR. Taking into consideration the medium term recommended holding period, the performance of the Sub-Fund, and thereby your Shares, will depend on the performance of the underlying investments in which the Sub-Fund has invested.

The B Shares are accumulating.

You can request the redemption of some or all of your Shares on each business day in Luxembourg.

Depository: BNP Paribas S.A. (Luxembourg Branch).

Further information: This Key Information Document describes a class of shares of a sub-fund of the SICAV. The assets and liabilities of each sub-fund of the SICAV are segregated by law, meaning the performance of another sub-fund of the SICAV has no impact on the performance of your investment in the Sub-Fund. You may exchange your Shares for share(s) of another sub-fund of the SICAV, as outlined in the Prospectus. You can obtain additional documents, such as the Prospectus, as well as the last available annual or semi-annual financial reports, free of charge, in English, at the registered office of the SICAV or on the website www.eurosgri.it. The Prospectus and the periodic reports are prepared for the SICAV as a whole.

Price Publication: Further information about the Shares, such as the latest net asset value of the Shares which is published daily, is available on the website www.eurosgri.it.

Intended Retail Investor: The Shares are suitable for institutional investors who seek an investment that combines income and growth and are interested in exposure to the Eurozone. Investors must have a medium term investment horizon and a knowledge and/or experience also basic of investing in funds. Investors must be able to bear losses (up to the total loss of the invested capital) and do not consider capital protection as important.

What are the risks and what could I get in return?

The risk indicator assumes that you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is the a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact the capacity of issuer to pay you.

Additional materially relevant risks for the Sub-fund, not included in the risk indicator, are the following:

- Counterparty risk : risk of loss in the event of default by a counterparty on instruments or contracts (e.g.: OTC derivatives).
- Liquidity risk : markets characterized by low volumes may cause difficulties in the valuation and/or trading of certain assets.
- Credit risk : possibility of unexpected losses if an issuer of debt securities in which the sub-fund is invested is unable to meet its payment obligations.

This product does not include any protection from future market performance so you could lose some or all of your investment. If the Sub-Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period : 5 years Example Investment: € 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€ 7,440	€ 6,810
	Average return each year	-25.56%	-7.41%
Unfavourable	What you might get back after costs	€ 8,140	€ 8,430
	Average return each year	-18.56%	-3.35%
Moderate	What you might get back after costs	€ 10,060	€ 8,990
	Average return each year	0.61%	-2.12%
Favourable	What you might get back after costs	€ 11,150	€ 11,460
	Average return each year	11.48%	2.77%

The figures shown above include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between August 2019 and August 2024.

Moderate scenario: this type of scenario occurred for an investment between May 2018 and May 2023.

Favourable scenario: this type of scenario occurred for an investment between December 2015 and December 2020.

What happens if Euromobiliare Asset Management SGR SpA is unable to pay you?

The assets and liabilities of the Sub-Fund are segregated from the assets and liabilities of the Management Company, meaning the default of the Management Company as PRIIP Manufacturer should not cause you a financial loss. However, if the Sub-Fund is unable to pay what is owed, you could lose your entire investment. The Depositary, who is responsible for the safe-keeping of the assets of the SICAV, is required by law to segregate the assets of the Fund from its own. The Depositary will also be liable, in accordance with the law, if a financial instrument held in its custody is lost, unless it can prove that the loss was beyond its control, in which case you may face a financial loss. Such losses are not covered by any guarantee or investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example

investment amount and different possible investment periods.

We have assumed:

- that you would get back the amount that you invested in the first year (0% annual return). For the other holding periods we have assumed that the product performs as shown in the moderate scenario;
- that 10.000 EUR per year is invested.

	If you exit after 1 year	If you exit after 5 years
Total Costs	€ 43	€ 213
Annual cost impact (*)	0.4%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be -1.7% before costs and -2.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge any entry fee for this product.	€ 0
Exit costs	We do not charge an exit fee for this product.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.42% of the value of your investment per year. This is an estimate since the Sub-fund is newly established.	€ 42
Transaction costs	0.01% of the value of your investment per year. This is an estimate of the cost incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 1
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	€ 0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period was selected to align with the Management Company's projections as to when the underlying investments are most likely to start generating returns. Redeeming your Shares before the end of the recommended holding period may increase your risk of incurring lower or no returns on your investment. You may request, on any day which is a bank business day in Luxembourg, to redeem all or part of the Shares held. Requests for the redemption of Shares shall be made in writing either directly to the UCI Administrator, in the case of direct investment, or through the Principal Placing Agent or the Placing Agent in the country of marketing which had collected the subscription request. Please refer to the Prospectus for further details regarding redemptions.

How can I complain?

Complaints must be submitted to: Euromobiliare International Fund Sicav, 9 rue de Bitbourg, L-1273 Luxembourg, Grand Duchy of Luxembourg, Email: AISEurofundlux@arendtservices.com. For additional information, please refer to the website: <https://www.eurogr.it/it/policy>

Other relevant information

This Key Information Document, the Prospectus, the Articles, the latest annual and semi-annual reports of the SICAV are provided to you as required by law. Further information and documents relating to the Sub-Fund, including various published policies of the SICAV and/or the Management Company, can be found on the website www.eurogr.it.

You can download the past performance of the Shares over the 10 years at www.eurogr.it.

You can find previous performance scenarios calculations, which are updated on a monthly basis, at <https://www.eurogr.it/it/documentazione-sicav/scenari-di-performance>.
