What is this product?

Type: The shares are a class of shares (the "Shares") in Equity Income (the "Sub-Fund"), a sub-fund of Euromobiliare International Fund (the "SICAV"), a *société anonyme* set up as an Undertaking for Collective Investments in Transferable Securities (UCITS) under Luxembourg law. Euromobiliare Asset Management SGR SpA (the "Management Company") has been appointed as the management company of the Fund. The Sub-Fund is a compartment of an investment fund, whose performance will depend on the performance of its portfolio.

Term: The term of the Sub-Fund is unlimited. The board of directors of the SICAV (the "Board") may decide to terminate the Sub-Fund by liquidation or merger under certain circumstances. The Board also has the power to compulsorily redeem your Shares in certain circumstances. The Management Company as PRIIP Manufacturer cannot terminate the Shares, Sub-Fund or SICAV unilaterally.

Objectives: The Sub-Fund is mixed-equity Sub-Fund and seeks to invest in securities originating dividend distribution and allowing for long-term growth. The Sub-Fund promotes environmental and social characteristics, in line with Article 8 of the Sustainable Finance Disclosure Regulation (SFDR), by identifying issuers capable of generating sustainable business results over time, while respecting good governance practices (ESG factors). The Sub-Fund invests at least 60% of its net asset in equity-type securities, including equity-linked securities (warrants, depositary receipts, index/participations notes and other participation rights). The portion not invested in shares may be invested in bond-type securities and/or money market instruments. The Sub-Fund may, additionally, hold ancillary liquid assets under section 5.A.5 of the Prospectus. For investment and cash management purposes and/or in case of adverse market conditions, cash equivalents, such as deposits and money market instruments with a residual maturity of less than 12 months. The net assets of the Sub-Fund may be invested up to 10% in shares, debt securities and/or money market instruments issued by issuers having their registered office or carrying out their main activity in emerging markets or by sovereign issuers of such countries. The net assets of the Sub-Fund may be invested up to 10% in convertible bond securities. The net assets of the Sub-Fund may be invested up to 10% in bond-type securities and money market instruments with a rating below BBB- («non investment grade») and in unrated bonds. The Sub-Fund may also invest up to 40% of its net assets in units of UCITS and/or other UCIs. The Sub-Fund will not invest in contingent convertible bonds ("CoCo"), ABS/MBS/CMBS and/or distressed or default securities. The Sub-Fund will significantly use listed derivatives and unlisted derivatives (OTC), (e.g. Equity Swap, option, etc.) and securities lending transactions, for hedging and investment purposes. The Sub-Fund is actively managed without reference to a benchmark.

The D shares are distribution class.

You can request the redemption of some or all of your shares on any bank business day in Luxembourg.

Depository: BNP Paribas S.A. (Luxembourg Branch).

Further information: This Key Information Document describes a class of shares of a sub-fund of the SICAV. The assets and liabilities of each sub-fund of the SICAV are segregated by law, meaning the performance of another sub-fund of the SICAV has no impact on the performance of your investment in the Sub-Fund. You may exchange your Shares for share(s) of another sub-fund of the SICAV, as outlined in the Prospectus, and subject to a conversion fee of up to 0.5% of the net asset value of the Shares to be converted. You can obtain additional documents, such as the Prospectus, as well as the last available annual or semi-annual financial reports, free of charge, in English, at the registered office of the SICAV or on the website www.eurosg.it. The Prospectus and the periodic reports are prepared for the SICAV as a whole.

Price Publication: Further information about the Shares, such as the latest net asset value of the Shares which is published daily, is available on the website www.eurosg.it.

Intended Retail Investor: The sub-fund is intended for retail investors seeking to create or optimize the value of their investment, with a long term investment horizon and medium knowledge and/or average experience of investing in funds. The investor can bear losses (up to the total loss of the invested capital) and does not consider the capital protection as important.

What are the risks and what could I get in return?

The risk indicator assumes that you keep the product for 7 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is the a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact the capacity of issuer to pay you.

Additional risk relevant for the sub-fund, not included in the risk indicator:

- *Counterparty risk* : risk of loss in the event of default by a counterparty on instruments or contracts (e.g.: OTC derivatives).
- *Liquidity risk* : markets characterized by low volumes may cause difficulties in the valuation and/or trading of certain assets.
- *Credit risk* : possibility of unexpected losses if an issuer of debt securities in which the sub-fund is invested is unable to meet its payment obligations.

This product does not include any protection from future market performance so you could lose some or all of your investment. If the Sub-Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 12 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market conditions.

Recommended holding period : 7 years Example Investment: € 10,000			
Scenarios		If you exit after 1 year	If you exit after 7 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if Euromobiliare Asset Management SGR SpA is unable to pay you?

The assets and liabilities of the Sub-Fund are segregated from the assets and liabilities of the Management Company, meaning the default of the Management Company as PRIIP Manufacturer should not cause you a financial loss. However, if the Sub-Fund is unable to pay what is owed, you could lose your entire investment. The Depositary, who is responsible for the safe-keeping of the assets of the SICAV, is required by law to segregate the assets of the Fund from its own. The Depositary will also be liable, in accordance with the law, if a financial instrument held in its custody is lost, unless it can prove that the loss was beyond its control, in which case you may face a financial loss. Such losses are not covered by any guarantee or investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- that you would get back the amount that you invested in the first year (0% annual return). For the other holding periods we have assumed that the product performs as shown in the moderate scenario;
- that 10.000 EUR per year is invested.

	If you exit after 1 year	If you exit after 7 years
Total Costs	€ 468	€ 2,258
Annual cost impact (*)	4.8%	3.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 5.6% before costs and 2.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	€ 200
Exit costs	We do not charge an exit fee for this product.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.08% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 204
Transaction costs	0.49% of the value of your investment per year. This is an estimate of the cost incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 48
Incidental costs taken under specific conditions		
Performance fees	The performance fee is equal to 15%, calculated on each valuation day, of the positive difference between the NAV and the highest historical value (high water mark, « HWM »), being the highest net asset value (after deduction of the calculated performance fee) on any of the preceding days after the first valuation day). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	€ 16

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

The recommended holding period was selected to align with the Management Company's projections as to when the underlying investments are most likely to start generating returns. Redeeming your Shares before the end of the recommended holding period may increase your risk of incurring lower or no returns on your investment. You may request, on any day which is a bank business day in Luxembourg, to redeem all or part of the Shares held. Requests for the redemption of Shares shall be made in writing either directly to the UCI Administrator, in the case of direct investment, or through the Principal Placing Agent or the Placing Agent in the country of marketing which had collected the subscription request. Please refer to the Prospectus for further details regarding redemptions.
