What is this product?

Type: The shares are a class of shares (the "Shares") in Euro Short Term Green Bond (the "Sub-Fund"), a sub-fund of Euromobiliare International Fund (the "SICAV"), a *société anonyme* set up as an Undertaking for Collective Investments in Transferable Securities (UCITS) under Luxembourg law. Euromobiliare Asset Management SGR SpA (the "Management Company") has been appointed as the management company of the Fund. The Sub-Fund is a compartment of an investment fund, whose performance will depend on the performance of its portfolio.

Term: The term of the Sub-Fund is unlimited. The board of directors of the SICAV (the "Board") may decide to terminate the Sub-Fund by liquidation or merger under certain circumstances. The Board also has the power to compulsorily redeem your Shares in certain circumstances. The Management Company as PRIIP Manufacturer cannot terminate the Shares, Sub-Fund or SICAV unilaterally.

Objectives: The Sub-Fund is a bond sub-fund that aims to gradually grow the invested capital in the short-term, contributing to the environmental objective of climate change mitigation through sustainable investments. The Sub-Fund has a sustainable investments objective, in line with Article 9 of the SFDR. The Sub-Fund will invest: a. at least 90% of its net assets in green bonds and sustainability bonds issued by States, their territorial units, public bodies, government agencies, companies, and/or supranational institutions, all of which are committed to allocating the proceeds toward financing activities or projects designed to generate a positive environmental impact in alignment with the sustainable investment objective; b. up to 10% of its net assets in green bonds issued by issuers located or who carry out their main activity in emerging countries or by sovereign issuers of such countries; c. up to a 100% of its net asset in bond-type securities with a rating equal or greater than BBB- ("investment grade"); d. up to 10% of its net asset in bond-type securities with a rating below BBB- ("non investment grade") or in unrated bond securities; and e. up to 10% of its net asset in cash and cash equivalents, bank deposits and/or short-term government securities of issuers of the Euro area. Investments are denominated in euros and there are no specific restrictions regarding the type of issuers, geographical areas, and economic sectors. The overall duration of the portfolio (including derivatives) tends to be between 1 and 3 years. The Sub-Fund will not invest in convertible bond type securities, contingent convertible bonds ("Coco"), ABS, MBS, CMBS and/or instruments such as distressed or default securities. The Sub-Fund may, additionally, hold ancillary liquid assets under section 5.A.5) of the prospectus of the Fund (the "Prospectus"). For investment and cash management purposes and/or in case of adverse market conditions, the Sub-Fund may hold cash equivalents, such as deposits and money market instruments with a residual maturity of less than 12 months. The use of derivatives and securities lending transactions will take place solely for hedging purposes. The Sub-Fund will not use TRS derivatives or other financial derivative instruments with the same characteristics. The Sub-Fund is actively managed without reference to a benchmark.

The A shares are accumulating.

You can request the redemption of some or all of your shares on any bank business day in Luxembourg.

Depository: BNP Paribas S.A. (Luxembourg Branch).

Further information: This Key Information Document describes a class of shares of a sub-fund of the SICAV. The assets and liabilities of each sub-fund of the SICAV are segregated by law, meaning the performance of another sub-fund of the SICAV has no impact on the performance of your investment in the Sub-Fund. You may exchange your Shares for share(s) of another sub-fund of the SICAV, as outlined in the Prospectus, and subject to a conversion fee of up to 0.5% of the net asset value of the Shares to be converted. You can obtain additional documents, such as the Prospectus, as well as the last available annual or semi-annual financial reports, free of charge, in English, at the registered office of the SICAV or on the website www.eurosg.it. The Prospectus and the periodic reports are prepared for the SICAV as a whole.

Price Publication: Further information about the Shares, such as the latest net asset value of the Shares which is published daily, is available on the website www.eurosg.it.

Intended Retail Investor: The sub-fund is intended for retail investors seeking to create or optimize the value of their investment, with a short term investment horizon and medium knowledge and/or average experience of investing in funds. The investor can bear losses (up to the total loss of the invested capital) and does not consider the capital protection as important.

What are the risks and what could I get in return?

The risk indicator assumes that you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is the a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of issuer to pay you.

Additional risk relevant for the sub-fund, not included in the risk indicator:

- *Counterparty risk*: risk of loss in the event of default by a counterparty on instruments or contracts (e.g.: OTC derivatives).
- *Liquidity risk*: markets characterized by low volumes may cause difficulties in the valuation and/or trading of certain assets.
- *Credit risk*: possibility of unexpected losses if an issuer of debt securities in which the sub-fund is invested is unable to meet its payment obligations.

This product does not include any protection from future market performance so you could lose some or all of your investment. If the Sub-Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product/a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market conditions.

What happens if Euromobiliare Asset Management SGR SpA is unable to pay you?

The assets and liabilities of the Sub-Fund are segregated from the assets and liabilities of the Management Company, meaning the default of the Management Company as PRIIP Manufacturer should not cause you a financial loss. However, if the Sub-Fund is unable to pay what is owed, you could lose your entire investment. The Depositary, who is responsible for the safe-keeping of the assets of the SICAV, is required by law to segregate the assets of the Fund from its own. The Depositary will also be liable, in accordance with the law, if a financial instrument held in its custody is lost, unless it can prove that the loss was beyond its control, in which case you may face a financial loss. Such losses are not covered by any guarantee or investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- that you would get back the amount that you invested in the first year (0% annual return). For the other holding periods we have assumed that the product performs as shown in the moderate scenario;
- that 10.000 EUR per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total Costs	€ 105	€ 313
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 0.1% before costs and -1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The recommended holding period was selected to align with the Management Company's projections as to when the underlying investments are most likely to start generating returns. Redeeming your Shares before the end of the recommended holding period may increase your risk of incurring lower or no returns on your investment. You may request, on any day which is a bank business day in Luxembourg, to redeem all or part of the Shares held. Requests for the redemption of Shares shall be made in writing either directly to the UCI Administrator, in the case of direct investment, or through the Principal Placing Agent or the Placing Agent in the country of marketing which had collected the subscription request. Please refer to the Prospectus for further details regarding redemptions.
