## What happens if Euromobiliare Asset Management SGR SpA is unable to pay you?

Between shareholders, each sub-fund is intended to represent a separate entity with its own rights, capital gains, losses, charges and fees. The assets and liabilities of the sub-fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. However, if the sub-fund is unable to pay what is owed, you could lose the entire investment as there is no guarantee or compensation system.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables below show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- that you would get back the amount that you invested in the first year (0% annual return). For the other holding periods we have assumed that the product performs as shown in the moderate scenario;
- that 10.000 EUR per year is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total Costs</b>	<b>€ 303</b>	<b>€ 713</b>
<b>Annual cost impact (*)</b>	<b>3.1%</b>	<b>1.5% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 0.9% before costs and -0.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	€ 200
Exit costs	We do not charge an exit fee for this product.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.79% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 77
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the cost of buying and selling the underlying investments for the product. The actual amount depends on how much we buy and sell.	€ 6

## Incidental costs taken under specific conditions

Performance fees	The performance fee is equal to 10%, calculated on each valuation day, of the positive difference between the NAV and the highest historical value (high water mark, « HWM »), being the highest net asset value (after deduction of the calculated performance fee) on any of the preceding days after the first valuation day). The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	€ 20
